

Fix Up (Patch Up Series Book 2)

Saying I love you doesnt erase the old scars and fears. I love you to insanity. Im not even sure if its a good thing. Duke Skye is trying to overcome what happened with Sean. Now that shes slowly healing, both physically and mentally, shes determined to do something she should have done sooner. Shes meeting twice a week with a new, very young therapist, Dr. Marshall. There, shes able to talk freely, unwind, and question things. Most of the sessions she talks about herself and her hangups, along with her relationship with Duke, which is still on rocky ground. I want to taste his sweat. I want to hear his groans. I want to feel him inside of me. Skye But while Skye is slowly getting back on her feet, Duke feels like hes drowning. Hes afraid of pushing her too much, of initiating intimacy, and its weighing between them. Moreover, knowing that hes not the one shes talking to anymore is making him feel things he never thought possible. Its a matter of when Ill stop fighting. Duke As days pass, Duke is showing over and over how vulnerable he truly is and how Skye has more power over him than she ever imagined. When Skye sees how they keep hurting each other, shes determined to do everything in her power to make things right, no matter what the cost. But one thing is still sure; she can count on Duke whenever she needs him, even if they disagree and fight. When Duke loves, he loves with everything hes made of, the good and the bad. Loving her is confusing, making me afraid of myself and what I can do ... because I can break us both. Duke
