

Across A Bright Field

Lauren Clark has certain expectations when she accepts an invitation from a college classmate to a mini-reunion in the newlyweds new rural home. But its what she doesnt expect that throws her life in turmoil. Lauren expects the reunion will give her time to reconnect and reminisce with her three old friends. She also expects to have time to decide on the direction her life should take now that her job as assistant to her best-selling author father has ended with his death. What she doesnt expect is that her dog will run into the woods near her friends home and uncover a dead body the classmate whod been a no-show for their reunion. She also doesnt expect that she will fall for her friends new husband, especially since she is engaged herself. Lauren learns that what she remembers as halcyon college days were anything but that, and others old resentments are not far under the surface. And death may be right around the corner.
