

Nashville, Chattanooga & St. Louis - A History of The Dixie Line

A fascinating railroad stretching from Memphis to Atlanta, the NC&St.L has a history beginning in 1840, and stretching through the Civil War to a merger with its parent line in 1957. The photos, diagrams, and maps presented in this book will help you understand the development and operation of the line as a key link between Memphis and the Appalachians. The railroad used Mikados, Pacifics, and Mountain types, as well as the first 4-8-4s in the South. Leading the way were the bullet-nosed, semi-streamlined J3 class 4-8-4s known as the Yellow Jackets. Also featured in the book are model railroads that use the NC&St.L as a prototype. Written in an easily readable style, this book will interest all fans of railroading in the South.
