Mason had always been lone wolf, content with the solitude that life offered him, but when he meets the bewitching, Juliet, he begins to question everything about his lonely existence. As a witch with the ability to see the future, Juliet had known Mason was her mate long before she actually met him for the first time. As a Were she felt their bond from the moment they first met, but when he fails to claim her, she is faced with a future without the man she loves by her side. With his future in mind, Mason turns to his friends to see if he can embrace pack life and be everything Juliet needs in a mate. If he cannot, then he is prepared to walk away from the only woman he would ever love. If he can, then he just might get everything he never knew he wanted.
