

This Trust of Mine (Raine Series #2)

Love cannot be defined by age or time, but by the way that person makes you feel. He made me feel completely vulnerable, but vulnerability I have learned is a gift, one that I will gladly accept from Madison Raine. Kayla Madison had irrevocably changed me. He opened me up to feel things I had never felt, and he never judged me for my past. In the short amount of time I had known him, I had fallen in love with him and everything he encompassed. He showed me how to live, how to enjoy life, but best of all, he showed me how to love. They say bad things happen to good people, well that saying rang truer to me now than ever before. Madison is gone. He is off at school in Arizona, and I just couldn't bring myself to leave with him. That was my first mistake. See the thing about trouble is, it will always find you. Trouble found me the night he left, and that night forever changed me. Now I am fighting my way back, alone. Madison Leaving Kayla was one of the hardest things I had ever had to do. To say I regret my decision to leave her behind, would be an understatement. My world shifted when I met her and I would forever be changed. Everything felt different now that I was away, everything with her at least. Something was wrong, I could feel it. I needed to go to her to find out what this feeling was, but would she trust me enough to tell me, and could I trust her to forgive me. When life, love and heart breaking circumstances stand to pull apart a bond so strong, what do you do without trust?
